

ΠΟΛΥΤΕΧΝΕΙΟ ΚΡΗΤΗΣ
TECHNICAL UNIVERSITY OF CRETE

The Team

The TUCer team (Technical University of Crete eco racing) develops low consumption and zero emissions prototype electric vehicles fueled by hydrogen, since 2007.

The team's members are volunteers. To date, TUCer team has been awarded 7 trophies and several distinctions in international competitions. Each year, the team participates to the international low fuel competition [Shell Eco Marathon Europe](#), among 200 universities from Europe and the Mediterranean.

New Vehicle

A new prototype vehicle is under heavy development. The TUCer team will race with the new vehicle at [Shell Eco Marathon Europe 2022](#).

Achievements

The TUCer team has achieved the 4th place in its category three times and a total of 7 awards in the Shell Eco Marathon Europe competition.
